Re: Underground Tank Test
Village of Lincoln, Alcona Co.

Dear Mr. Karsen:

This letter is to confirm our February 4, 1985, telephone conversation. It is my understanding that you have arranged with Horner Creative Metals, Inc. to test your seven underground tanks the first part of March. The date is dependent on Horner's availability.

Thank you for your prompt attention to this matter and please let me know the exact date for the test when final arrangements are made.

Very truly yours,

John M. Alford
